Marta Domingo

hello@marta.fyi · LinkedIn · marta.fyi

I'm a designer with 10+ years of experience building products – shaping direction, working through interaction problems and staying close to the details. Currently at Miro, I lead Design Platform, AI enablement and Growth initiatives. I've worked across a range of product areas—from AI and collaboration tools to design systems—and at different stages, from early concepts to established products at scale.

Background

MPhil, Contemporary Philosophy
Universitat Oberta de Catalunya · 2023–Present

MBA, Business Administration
EAE Business School · 2020–2022

MA, Advanced Studies in Art History
University of Barcelona · 2015–2016

Bachelor's Degree, Product Design
ELISAVA · 2011–2015

Experience Design Program
KAOSPILOT · 2019

Lecturer at

ELISAVA — Master's Program Director, Strategic Design and Innovation
2023–2025

BAU — Lecturer, Master's in Experience Design
2021–2025

Massana School of Art and Design — Academic Advisor
2021

IED — Lecturer, Master's in Interaction Design
2020

ELISAVA — Lecturer, Undergraduate Degree in Design
2016–2021

Experience

Miro — Design Manager, AI Growth
2026–Present

- Lead Acquisition, Retention and Growth streams, working on activation and expansion impacting 100M+ users.
- Lead the design of the AI onboarding experience that delivered a meaningful increase in paid conversion and ARR.
- Set up shared standards and practical frameworks that help teams make stronger decisions autonomously.

Miro — Design Manager, Core Experiences
2025–2026

- Built and led a design-platform team supporting four product squads, giving clear ownership to Miro's design language.
- Made the case for a shared design-to-code workflow and aligned leadership around the investment, moving the work from a local initiative to an organizational priority.
- Led a refresh of Miro's design language, raising visual quality and making the product feel more distinctive and recognizably Miro.

HP — Design Lab Lead
2024–2025

- Led HP's early-stage innovation team, exploring new markets, emerging technologies and unmet customer needs.
- Framed new product opportunities and used prototypes to test whether they were worth developing.
- Focused on the riskiest assumptions first, giving teams stronger evidence for investment decisions.

HP — Product Design Lead
2021–2023

- Led the move to a shared design-system platform, common interaction patterns and consistent product standards.
- Increased component reuse by 40% and shortened update cycles by 25%.
- Set standards for quality, consistency, usability and metrics for adoption across products.

HP — Senior Product Designer
2019–2021

- Led four designers working on different products and platform projects.
- Consolidated 10+ applications used by 36k enterprises into a single platform.
- Led design research to discover new customer needs, shape longer-term product direction and create an experimentation team culture.

HP — Product Designer
2017–2019

- Designed product experiences from early concepts and user flows through detailed interactions and delivery.
- Built prototypes, tested ideas with customers and worked with Product and Engineering to refine solutions before development.
