Marta Domingo

hello@marta.fyi LinkedIn marta.fyi

I'm a designer with 10+ years of experience building products – shaping direction, working through interaction problems and staying close to the details.

At Miro, I lead the Core Experiences and AI Platform teams. I've worked across AI, collaboration tools and design systems, from early concepts to established products at scale.

Experience

Miro

Design Manager, Core Experiences and AI Platform 2025 → Present

4 teams · 6 direct reports

- Lead the design of the AI onboarding experience that delivered a +2% increase in paid conversion and ARR.
- Built and led a design-platform team supporting four product squads, giving clear ownership to Miro's design language.
- Made the case for a shared design-to-code workflow and aligned leadership around the investment, moving the work from a local initiative to an organizational priority.
- Led a refresh of Miro's design language, raising visual quality and making the product feel more distinctive and recognizably Miro.
- Set up shared standards and practical frameworks that help teams make stronger decisions autonomously.

HP

Design Lab Lead 2024 → 2025

1 team · 5 direct reports

- Led HP's early-stage innovation team, exploring new markets, emerging technologies and unmet customer needs.
- Framed new product opportunities and used prototypes to test whether they were worth developing.
- Focused on the riskiest assumptions first, giving teams stronger evidence for investment decisions.

Product Design Lead 2021 → 2023

1 team · 2 direct reports

- Led the move to a shared design-system platform, common interaction patterns and consistent product standards.
- Increased component reuse by 40% and shortened update cycles by 25%.
- Set standards for quality, consistency, usability and metrics for adoption across products.

Senior Product Designer 2019 → 2021

Solo contributor

- Led design for several initiatives, including the consolidation of 10+ applications used by 36k enterprises into a single platform.
- Led design research to discover new customer needs, shape longer-term product direction and create an experimentation team culture.

Product Designer 2017 → 2019

Solo contributor

- Designed product experiences from early concepts and user flows through detailed interactions and delivery.
- Built prototypes, tested ideas with customers and worked with Product and Engineering to refine solutions before development.
